

Bell Book and Candle, You see what you see

We jumped at our fate
morning after that it was like
nearly going mad
I told you I could die
be that as it may -
long to hear you say
- feels like I've come home -
you see what I see
what I see is you
you need what I need
what I need is you
you got me, but I guess
it was not only me you'd love to
keep in suspense
just tell me - I'm the one
be that as it may -
I long to hear you say
- feels like I've come home -
you see what I see ...
