

# Belladonna, Foreverland

When have I seen this place before?  
Where have I seen your face?  
We must have met onto the ages  
Spirits in hyperspace  
We have already been in love  
This is no dream; it's you  
The very first time I kissed you  
I welcomed your return  
One life  
A glimpse of Grace and then  
no more  
One love  
Forever in my soul  
Eternity in your eyes  
Infinity in my hands  
We'll sail across the skies  
The journey never ends  
Eternity in your eyes  
Infinity in my hands  
We'll sail against the tide  
We'll reach Foreverland  
I was a King and you were Queen  
We were two of a kind  
Roamin' across the centuries  
Our energies entwined  
We have already been in love  
I do remember you  
The very last time I kissed you  
I swore I would return  
One life  
A spark divine and then  
no more  
One love  
Forever in my soul  
Eternity in your eyes  
Infinity in my hands  
We'll sail across the skies  
The journey never ends  
Eternity in your eyes  
Infinity in my hands  
We'll sail against the tide  
We'll reach Foreverland  
Time's standing still  
As we're kissing goodbye  
Don't leave me here  
I would never survive  
Alone  
One love  
I'll never let you go  
Eternity in your eyes  
Infinity in my hands  
We'll sail across the skies  
The journey never ends  
Eternity in your eyes  
Infinity in my hands  
We'll sail against the tide  
We'll reach Foreverland
