

Belle Perez, Light Of My Life

The light of my life

He was young and restless
A loner in the night
She felt so defenceless
Passion in their eyes

He could be so charming
Cool Latino style
Dangerous, disarming
Captivating smile

He was a love that could never be
Doesn't occur every day
Something to keep for eternity
Hold on tight you'll find a way

I can feel the power inside
Taking full control
I can feel your energy now
Deep into my soul

Love generates electricity.
Lighting a flame in the night
Come on and shine, come on and shine
You are - the light of my life, Light of my life

I can feel the power inside
Deep into my soul

She was so attractive
Innocent and pure
He was tall and handsome
With a love that had no cure

Matches made in heaven
Rivals made on earth
Time will tell the story
Of a love and what it's worth

They didn't care, lovers never do
Paying the ultimate price
Being together was all they knew
Hold on tight and don't think twice

Chorus'
