Each Step That I Take

Thanks to Lela Chisholm for these lyrics.

Now and then,
I feel as if the earth is shaking
Hold my breath so tight
Even when,
It seems as if my world is breaking
You made me feel alright

Oh how
You made me see what's meant to be
Oh how
I thought that I'd be here forever

But I really gotta go now
You cared for me were there for me always
But it's time for me to go now
Still care for me be there for me love me
But I really gotta go now
What you gave to me will stay with me always
Don't wanna be alone now
So I think of you each step that I take

When it's cold
I feel your loving warm around me
Hold me oh so tight
I was told
Even when the ice is breaking
It will be alright

Oh how
You made me see what's meant to be
Oh how
I thought that I'd be here forever

Chorus

Now and then,
I feel as if the earth is shaking
Hold my breath so tight
Even when,
It seems as if my world is breaking
You made me feel alright
I thought that I'd be here forever

Chorus x 2
