Perfect Bliss

Thanks to Gabriella for these lyrics.  
Thanks to Jenny for correcting these lyrics.

I think they call it love  
It's nothing to be scared about  
Believe me  
Ain't nothin we can do  
Just let it be a part of you  
And feel it

I wanna let you know  
I promise, I promise  
To never let you go  
You know, you know

## CHORUS

We can make it good  
We can make it right  
We can make the shadows turn to light  
Boy, when it feels like this  
(When it feels like this)  
It's some kind of perfect bliss  
(Some kind of perfect bliss)  
We dont need to hurt  
We dont need the pain  
We can be the sun behind the rain  
Boy, when it feels like this  
(When it feels like this)  
It's some kind of perfect bliss

You're scared its gonna change  
You say you need a guarantee  
Just leave it  
Look what you will find  
Don't you know that love is blind  
Just feel it

I wanna let you know  
I promise, I promise  
To never let you go  
You know, you know

## CHORUS

It's A to Z, it's chemistry  
It's meant to be  
It's everything  
It's all we need  
Just let it be  
yeahhhh yeah yeah yeah

I wanna let you know  
I promise, I promise  
To never let you go  
You know  
And you know

## CHORUS

Some kind of love  
Some kind of feelin

Some kind of miracle  
Yeah, yeah

Some kind of perfect bliss
