

Belphegor, No Resurrection

Desecrating - with possessed burning eyes

hell has risen - the gods of pain

Pull the veins - tear out the rotted soul

take the last breath - snuff out the life

No resurrection

Massacrate the lord of the weak

Buried blessings

Destroy the remains of Christ

In the burnt out churches

They stand awaiting their doom

Indulge in their blood

Sepulture of hypocrisy

Light of holiness

Forever now extinguished

Endure eternal pain

You foolish ghost of god
