

# BEMY, All I Need Is Just A Friend

an empty space  
between the darkness and the light

my sin's go to the wrongs and the rights

I am feeling better  
and better each day  
no therapy  
no doctor  
no signature  
no preachers

I am feeling better  
and better this days  
no pills  
no prescriptions  
no even politicians

All I Need Is Just A Friend  
do all my things finally ends  
All I Need Is Just A Friend  
to get my head out of the sand  
All I Need Is Just A Friend  
do all my things finally ends  
All I Need Is Just A Friend  
to get my head out of the sand

the gap  
between the sad and the happiness  
lonely days  
to ... and find where we are

this mess

I am feeling better  
and better each day  
no therapy  
no doctor  
no signature  
no preachers

I am feeling better  
and better this days  
no pills  
no prescriptions  
no even politicians

All I Need Is Just A Friend  
do all my things finally ends  
All I Need Is Just A Friend  
to get my head out of the sand

take me off the..  
make me who I wanna be  
take me off the..  
make me who I wanna be

I am feeling better  
and better each day  
no therapy  
no doctor  
no signature  
no preachers

I am feeling better  
and better this days  
no pills  
no prescriptions  
no even politicians

All I Need Is Just A Friend  
do all my things finally ends  
All I Need Is Just A Friend  
to get my head out of the sand
