

Ben Bridwell, Your Love Is Forever

Sublime is the summertime warm and lazy
These are perfect days like heaven's about here
Unlike summer came and went your love is forever
I feel it and my heart knows that we share it together
Resigned to the wintertime's cold and dreary
Peering into fire flames burning I know
Unlike winter came and went your love is forever
I feel it and my heart knows that we share it together

I feel it and my heart knows you're the one
The guiding light in all your love shines on
The only lover worth it all, your love is forever, ooh
Unlike summer came and went your love is forever
I feel it and my heart knows that we share it together
The only lover worth it all, your love is forever, ooh
