

Ben Kweller, I Need You Back

Take me back when you think that it's good
It feels worse than they said it would
You're gone but not forever
When I know that I'm never wanted
I tuck away in my turtle shell
I've standed on this hex forever

I need ou back, I need you here,
to take away all of my pain and then my fear

Hey! I need you back

Like a ghost in his darkest visit,
you got my sould, now baby why is it
gone gone gone? Take it from me
You are free if you can sleep at night,
you really must be hard if you're feeling alright
Hey hey hey, we're way uptowwn, we gotta turn around

I need you back, I need you here,
to take away all of my pain and then my fear

Hey! I need you back

I need you back, I need you here,
to take away all of my pain and then my fear

Hey! I need you back
(I'm so lost without you)
