Ben Lee, Get Your Sleep

I know you feel pretty beat You're wanting to sleep I know your eyes getting sore You've been up since three The time's come to sleep

If you wanna crash out So if you wanna crash out

Don't feel I'm keeping you up I know you're near dead I won't be waking you up That's best left unsaid The time's come to sleep

So if you wanna crash out So if you wanna crash out I'll let you sleep If you wanna crash out I'll let you be If you wanna crash out I'll let you be

If you wanna crash out...
