

# Ben Lee, We're All In This Together

woke up this morning  
i suddenly realized  
we're all in this together  
i started smiling  
'cos you were smiling  
and we're all in this together  
i'm made of atoms  
you're made of atoms  
and we're all in this together  
and long division  
just doesn't matter  
'cos we're all in this together

i saw you walking  
in the city  
we're all in this together  
the city's changing  
'cos we are changing  
and we're all in this together  
every twelve seconds  
someone remembers  
that we're all in this together  
in the kitchen  
of your rent-control apartment  
we're all in this together

c'mon baby  
i don't mean to rush you  
i only wanted to reach out and touch you  
i've gotta start to open my heart

i know you think  
about jumping ship before it sinks  
but we're all in this together  
ask a scientist  
its quantum physics  
we're all in this together  
and on the subway  
we feel like strangers  
but we're all in this together  
yeah i love you and you love her  
and she loves him  
but we're all in this together

y'know baby  
there's never been protection  
in all the history of human connection  
c'mon darling  
it's alright to show me  
you don't ever need to be lonely  
once you start to open your heart

i saw you crying  
i started crying  
cos we're all in this together

and then religion  
its a big decision  
but we're all in this together

we're all in this together
