Ben Lummis, All Good

Chorus
It's all good
I don't care what people say
It's ok
Gonna live for you like I know I should
It's all good
No matter what may come my way
It's ok
Nothing can stop me from loving you.

Verse1
Who am I nothing compared to you
Far above greater than me
My heart, my life is all in you
You're the one who set me free

I never thought this is where I'd be
Looking back at what I've done
And where you've brought me from

Think about you
Dream about you
Talk about you
I can't sleep without you
Be without you
See without you

Chorus
It's all good
I don't care what people say
It's ok
Gonna live for you like I know I should
It's all good
No matter what may come my way
It's ok
Nothing can stop me from loving you.

Verse 2
How can I thank you
For all you've done in me
Blows my mind everytime
When I think
'Coz I finally realised
I can trust in your love
And give you my life

To your face it brings a smile
'Cos you see in me
The way I'm living
A life that's pleasing (yeah)
Everyone may not understand
That its all about you
Your will and your plan.

Think about you
Dream about you
Talk about you
I can't sleep without you
Be without you
See without you

Chorus
It's all good
I don't care what people say

It's ok
Gonna live for you like I know I should
It's all good
No matter what may come my way
It's ok
Nothing can stop me from loving you.
