

Benett, Marry Me

chorus.....

marry me my lord

carry me my lord

although I walk beside him every day

i'm often turned the other way

on my knees he rescues me I always find him hard to see

(chs)

thru the wind your voices sing

love yourself and set him free

guide me lord to where i'll be

send me one who will marry me

I need your strength, I need to pray

I need salvation here today

there's something words will never say

please save me from this mess i've made

(chs)
