

Benny Benassi, Kaleidoscope (feat. Kerli)

Your body - echo in sunlight is everything I feel
Every time we touch, every time we touch
We're moving fast, we're shining so bright
Tell me this is real, every time we touch

Kaleidoscope, there's so much coloring
I'm so in love, I see no other way
Your reflection in my eyes catching pieces of paradise
Kaleidoscope, kaleidoscope

The stars are dripping down the night sky
And if it's a dream please don't wake me up
Please don't wake me up
Your hands on me make me feel alive
If it's not what it seems
Please don't wake me up, please don't wake me up

Kaleidoscope, there's so much coloring
I'm so in love, I see no other way
Your reflection in my eyes catching pieces of paradise
Kaleidoscope, kaleidoscope
