

Benny Benassi, Waitin'for you

Every night i look at the sky
you know i'm breathing for you
and for all the world that you told me that will come true
don't make me wait no more
i need you, don't make me stay along alone
talk to me, talk to me baby..
do you know i'm breathing for you?
talk to me, i will always love you more
come to me baby right now
come to me, jut come to me..!!
looking for a star up in the sky
waitin' for some lover to arrive
I was searchin' for your face inside the darkness
every night i see you comin' back to me...
I was waitin' for you (for you..)
waitin' for you (for you..)
I am waitin' for you (for you..)
waitin' for you (for you..)
I am waitin' for you..
walkin' for a save no farm around
searching for the meaning of a love
as i walked aware the light i know a shadow
in my dreams i see you comin' back to me...
waitin' for you, (for you..)
waitin' for you (for you..)
I am waitin' for you (for you..)
waitin' for you (for you..)
waitin' for you, waitin' for you, waitin' for you
waitin' for you..
I was waitin' for you (for you..)
I am waitin' for you (for you..)
I am waitin' for you
