

# Benny Mardones, Run To You

I waited so long  
For your love  
All of my life  
It's what i dreamed of  
I waited long  
And now that your gone  
In the middle of the night  
I wake up in a cold sweat  
Reaching for the light  
I wanna run to you  
I start screaming  
I know i'm not dreaming  
In the middle of the cold dark night  
I wanna run to you

I start to cry whenever i  
Hear your name  
I realize  
That life will never be the same  
Something went wrong  
I can't believe it  
And it's hard to be strong

In the middle of the night  
I wake up in a cold sweat  
Reaching for the light  
I wanna run to you  
I start screaming  
I know i'm not dreaming  
In the middle of the cold dark night  
I wanna run to you

Then i heard you say good bye, baby  
Then you started leave  
But when you kissed me for the last time  
I started to bleed

In the middle of the night  
I wake up in a cold sweat  
Reaching for the light  
I wanna run to you  
I start screaming  
I know i'm not dreaming  
In the middle of the cold dark night  
I wanna run to you
