

Benton Paul, Jen's Song

The first time we held hands together,
It was like my world had stopped
The first time we closed eyes together,
It was like I couldn't talk
All I need from you
Is just a sentence or two
Telling me that you
Feel the way that I do
All I need from you
Is just a story or two
Telling me that you
Feel the way that I do
Every time we stand together,
I think of all the things I lack
And every time we hold each other,
All I want is that it lasts and lasts and lasts...
'Cause what I need from your
Is just a sentence or two
Telling me that you
Feel the way that I do
All I need from you
Is just a story or two
Telling me that you
Feel the way that I do
'Cause I'm not worthy of you...
(Would you stay if I played you my melody
Time would be kind in my mind when you're here with me
What could I say to you
(I can't tell what you want)
Saved my life but you might wanna hear me play
All I need is a miracle to help me stay
Beside you, beside you
And what you want me to be
