

Berkcan Demir, Hopes

Anything is anything
but everything is you!
where you've been
where have you proof

everything is everything
but not enough with you!
where would you be
what would you proof

I want all this things
but I don't ever give my way
ever give my way

like I owe you
anything you all
backing you not fall
like I owe you
anything you all
backing you looking for

I hope you know that!

you got high hopes
and you want more for me
you got actions
but you just want from me
you got high hopes
and you want more for me
you got actions
but you just want from me

like I owe you
anything you all
backing you not fall
like I owe you
anything you all
backing you looking for

I hope you know that!
