

Beseech, Come on in

Today is the day
you reveal yourself to me
please don't spek
Cause I'll greet you, I'll greet you with my kiss
I watched you from my corner
I felt your eyes from here
I knew that I adored you
When you heard, when you heard me say
Come on in, come on in to my world tonight
I want to feel you, feel your life through mine
Come on in, come on in to my world tonight
I want to see you, see your eyes catch the sun
Just think
about all we will go through it'll take time
A lifetime
a lifetime to proceed
I open my life wider
I crawl inside your skin
You make my body shiver
When you hear, when you hear me say
Come on in, come on in to my world tonight
I want to feel you, feel your life through mine
Come on in, come on in to my world tonight
I want to see you, see your eyes catch the sun
