

Beseech, Higher Level

I can't resist nor refuse the thrill of lust you bring me
The contradictions taking me down
Down the darker side of me
The insecurity is my fear
To loose a part of me
A pray of courage reaching my mind
Forgive me for my sins
Get down on your knees when I command
Lay back and take what's yours to have
I know exactly what to do
To reach a higher level of you
The feeling of loosing control
To do what you desire
Trembling from the shame you bring
You wanna make beg for more
Touch me , fill me do what you please
You're in control of me
The only things I hate to love
My God of pleasure
Get down on your knees when I command
Lay back and take what's yours to have
I know exactly what to do
To reach a higher level of you
A higher level of you
Get down...
Get down on your knees when I command
Lay back and take what's yours to have
I know exactly what to do
To reach a higher level of you
