

Beseech, Last Obsession

I'm resigned beneath the sky
To walk on the endless fields
Only the night take
My only dream away
It's my last obsession
It's my last obsession to get away
And I see illusions
I hear whispers all around
I tried to hold them back
Even if I
Circle around and I try to reach the sun
It's my last obsession
Circle around and I try to reach the sun
It's my last obsession to get away
My hope has flown away
To find a way from here
Another day alone
Without sharing
Circle around and I try to reach the sun
It's my last obsession
Circle around and I try to reach the sun
It's my last obsession to get away
