

Beth Orton, Moon

No one ... feel like on my skin
I want to know how Moon likes whit it
No one ... feel like on my skin
I want to know how the Moon gives live with in
And the same Moon rises as for me as you
There's really not much about that that we can do

I see a light
Ant it's bright keep up all night
I see a light
Ant it's bright keep up all night
I see a light
Ant it's bright keep up all night
