

Betty Curse, Excuse All The Blood

I've lost my soul again
Keep looking out for friends
Meeting back near the end so soon
I've lost the razor's edge
Burshing against your lips
Baby I'd build a bridge to you
Excuse all the blood
We're just having fun
Excuse all the blood
We're just having fun
We're just having fun
Come on you surely know
There's no place left to go
This is the coolest place
to show
Excuse all the blood
We're just having fun
Excuse all the blood
We're just having fun
We're just having fun
We're just having fun
We're just having fun
We're just having fun
We're just having fun
Excuse all the blood
We're just having fun
Excuse all the blood
We're just having fun
We're just having fun
Excuse all the blood
We're just having fun
Excuse all the blood
We're just having fun
We're just having fun
