

Between The Trees, Miss You

I miss you more than you even know.
more than you probly care
more than I ever show to you my dear
at least in words alone
and how does it make you feel to hear me say that I miss you?
How does it make you feel to hear me say ohh ohhh that I
I wanna stand next to you for awhile
I wanna hear you say
i miss you more than you even know
more than I seem to share(?)
where would I go
if ever you weren't there?
and how does it make you feel
to hear me say that I miss you?
and how does it make you feel
to hear me say ohh
that I, I wanna stand next to you for awhile
I, I wanna hear you say
oh oh ohohoh
I wanna stand oh,oh, ohohoh
I wanna stand next to you
And I, I wanna stand next to you for awhile
I I wanna hear you say...
