Between The Trees, Move

Stretch your line and cover up, to sit at home With every passing mile, melodies become More than a song in my head I paint a picture of the story of my life told And taking chances, see the colour scheme unfold This is ours And we're taking chances We're moving and we're not waiting for This to move So we're gonna move All I know is we're gonna make it out (we're moving) All I know is nothing can stop us now (still moving on) All I know is we're gonna make it out (we're moving) All I know is nothing can stop us now Time is precious, we can't stop now If you're burning by the bruises then You're never gonna make it out And if you're hurting, well reality shows And broken branches are a reason to say no This is ours And we're taking chances We're moving and we're not waiting for This to move So we're gonna move All I know is we're gonna make it out (we're moving) All I know is nothing can stop us now (still moving on) All I know is we're gonna make it out (we're moving) All I know is nothing can stop us now 'Cause these roads were made for moving So we're moving We're moving All I know is we're gonna make it out All I know is nothing can stop us now All I know is we're gonna make it out (we're moving) All I know is nothing can stop us now (still moving on) All I know is nothing can stop us now (still moving on) All I know is nothing can stop us now (still moving on)
