

Beverley Knight, Greatest Day (Classic Mix)

Written By Knight/Thomas/Pheto

It's a good thing the air feels cool today
And it's better that God, don't send the rain
And it's best if heaven holds back the clouds
Cuz inside 'o' me there's fire untamed

See everyday I find that 4 leaf clover
And everyday Lady Luck is at my door
And all of the fear I fight is in remission
To come around no more

And I'm feeling good, never better
In fact it's the greatest day of my life
And I'm feeling good, never better
In fact it's the greatest day of my life

It's a good thing your heater broke down today
And it's better you keep them drinks on ice
And it's best if you got them chills down in your soul
Cuz the heat inside 'o' me will surely suffice

And none of the world's restraints could ever hold me
and none of the superficial could tie me down
and none of the pain I felt was enough to break me
See my face was never made to from

Chorus

And I'm feeling... (Good)
Could you qualify that? (Never better)
And what day is today people? (The greatest day of my life, ah-oo!) (Good)
Ohh (Never better ooh)
And what day is it?
(Whoah greatest day, greatest day)

See everyday I find that 4 leaf clover
And everyday Lady Luck is at my door
And all of the fear I fight is in remission
To come around no more

Chorus (x3)
