

# Beyoncé, Disappear

If I begged and if I cried  
Would it change this cloudy night  
Would it get me some light  
Should I wait for you to call  
Is there any hope at all  
Are you drifting by  
When I think about it  
I know that I was never there  
Or even cared  
The more I think about it  
The less that I was able to share with you  
I try to reach you, I can almost feel you  
You're nearly here  
And then you disappear  
You disappear  
And when I lie all by myself  
I see your face, I hear your voice  
And my heart stays faithful  
And time has come and time has passed  
If it's good it's got to last  
It feels so right  
When I think about it  
I know that I was never there  
Or even cared  
The more I think about it  
The less that I was able to share with you  
I try to reach you, I can almost feel you  
You're nearly here  
And then you disappear  
You disappear  
I missed all the signs  
Ran out of time  
You were ready  
What did I know  
Starting on lines  
Now my love I'm ready to show  
When I think about it  
I know that I was never there  
Or even cared  
The more I think about it  
The less that I was able to share with you  
I try to reach you, I can almost feel you  
You're nearly here  
And then you disappear  
You disappear
