

# Bif Naked, You Are The Master

I am tied up in the burning sun  
Baby, you are my only shade  
You're the bowl of water beyond my reach  
I can only move the distance of this chain  
I chew anything you will give  
Eat anything - even my own words  
Scramble for any morsel  
You will throw  
You scatter hope like scraps of food

I guess you are the master  
I am the dog I am the dog  
Waiting for you to love me

I am jumping on you for affection  
I would love to lick your face  
You scold me - you push me off  
I'm your loyal bitch - a man's best friend  
I lie here and lick my wounds  
From my little bed of wishes  
I run to you in my dreams  
I pine for you in my life

I guess you are the master  
I am the dog I am the dog  
Waiting for you to love me

I have to sense of time at all  
20 minutes or 20 years  
It's all the same  
I am your muse  
You are my muse  
Broken hearts  
Baby please show me some mercy  
Don't put me down
