

Biffy Clyro, Convex, Concave

Six more times slide in your eye, you think you're innocent, innocent
Pull back and assess the skinned sky, to see your innocence, innocence

Use just once and destroy, searching for answers, you'll never employ
Complete, become your vision now, it's the same as I am

It's just true incest now, deceive your sins again, you're innocent
Reflect the hate in your eyes, convex your down, concave you're in again

Use just once and destroy, searching for answers, you'll never employ
Complete, become your vision now, it's the same as I am

Just to see this love plan!

Hit reset, reset, time and time again
Hit reset, reset, time and time again

Sweat drenched hands, is it blood, fuck who cares?
I can not help the joy I'm feeling
Hurting you, you're beautiful when you cry
If you loved, you'd understand the way
Clever thoughts withstand and sway against your pain
I can't give, a thing, your way, to believe in, to believe in your heart
I'm sorry for this now but I have to hurt, I have to kill you
