

# Big Bad Voodoo Daddy, Always Gonna' Get Ya

When you're hangin' with your friends at night  
And everything just feels all right  
It's always gonna getcha every time

Well, the sun is out  
You're feeling great  
There is no time to hesitate  
It's always gonna getcha every time

It comes on fast  
You just hope that it will last  
It's got a mind of its own  
It will not leave you alone

It comes on like a friend  
Who leaves you crazy in the head  
It sneaks up on you when you least expect it to

So hang on tight with both your hands  
Forget about those future plans  
It's always gonna getcha every time  
It's always gonna getcha every time

My words(?) of advice  
Come to you  
With a price  
A lesson I have learned  
That makes once or twice

So play it cool and you will see  
You can end up just like me  
It's always gonna getcha every time  
It's always gonna getcha every time

It comes on fast  
You just hope that it will last  
It's got a mind of its own  
It will not leave you alone

It comes on like a friend  
Who leaves you crazy in the head  
It sneaks up on you when you least expect it to

So hang on tight with both your hands  
Forget about those future plans  
It's always gonna getcha every time  
It's always gonna getcha every time  
It's always gonna getcha every time
