

Big Bad Voodoo Daddy, Big And Bad

Verse One

Like a wild train rollin' so wild
and full of steam once you get us going,
it's like nothing you have seen
with some fire in your belly,
you move a little faster
and the devil in your makes you hit a little harder

Verse Two

So where do you draw the line
and tell yourself no more is it
when your back's against the wall
or you're crawlin' on the floor
it's always work, work, work some more
until they say it's time but fight the fight worth fighting
and things will turn out fine. And I say

Chorus

Lordy, lordy lordy lordy lordy be lordy lordy lordy
big and bad as we can be this is
what it means when we swing on you brother

So now that we know who we really trust
There's plenty room for them but there's more room for us
when your feet don't touch the ground,
there's nothing you can say just jump inside,
enjoy the ride, and make the big boys pay.
