

Big Bad Voodoo Daddy, When It Comes To Love

Verse One

I'm just a small town guy with a handful of dreams
My future seems bright or that's how it seems
When it comes to love
I'm in need of advice

Verse Two

I've got it all figured out
I've got the world on a string
But baby there's really only one thing
When it comes to love
I'm in need of advice

Chorus

But when I look to the sky
I nearly die thinking about how it should be
but that's just me
and I'll always be alone in my misery

Verse Three

It's like a long, cold walk in a winter beach
love is a game you cannot teach when it comes to love
I'm in need of advice!
