

Big Bang, Come be my lady

Been together for a while now
Getting closer everyday I wake up
in the morning and smile
Happy to be by your side
Don't you get me wrong now
Got a thing I need to know
Think it through, just be sure
The life we live (living)
The life we lie (lying)
It's all about G's (baby)
The way we think (thinking)
The choice you make (making)
It's all about G's (baby)
Come by my lady
I can show you what you've always dreamed
(don't be so shady)
You can live a life of luxury
(maybe I'm crazy)
I'm just gonna think of you and me
This world is so cold)
So so cold
(but that's now is gone)
I don't want to doubt you
your love is really true
But you see money talks
Can easily flip your thoughts
Wanna know if you love more than Gucci's and Dior
Losing you I can't afford
You're one I adore
The life we live (living)
The life we lie (lying)
It's all about G's (baby)
The way we think (thinking)
The choice you make (making)
It's all about G's (baby)
Come by my lady
I can show you what you've always dreamed
(don't be so shady)
You can live a life of luxury
(maybe I'm crazy)
I'm just gonna think of you and me
This world is so cold)
So so cold
(but that's now is gone)
