

Big Head Todd And The Monsters, Greyhound

As I was walking by the muddy river
I was touched by a hand
I was laid over in a strange land

As I looked to take myself a silver
Beneath the moonlight still lay a-bare
Barely unnoticed, bury my head in her soft hair

Greyhound roll on, get on and get me a ride

You made me feel good outside
You were a good public affair
Everybody knew there was nothin' goin' on

Greyhound roll on, get on and get me a ride
