

# Big Kenny, Rumba

You're looking at me and it's easy to see that you want me  
I don't hide things well  
So I bet you can tell that I want you too  
We sit for a while then both of us smile  
As the band starts to play  
I ask you to dance we know that romance  
Is only a rumba away

Put your hand in mine  
Lay your head on my shoulder  
Then when the song ends  
We can pretend it's not over  
As our bodies oh they come together and we sway  
Let's hold on to the night 'cause the rest of our life  
Is only a rumba away

As I hold you close I smell the rose that's in your hair  
I start to imagine that we are in heaven alone somewhere  
Your touch is revealing what we are feeling no one has to say  
Under the stars above we both know that love  
Is only a rumba away

Put your hand in mine  
Lay your head on my shoulder  
Then when the song ends  
We can pretend it's not over  
As our bodies oh they come together and we sway  
Let's hold on to the night 'cause the rest of our life  
Is only a rumba away

Put your hand in mine  
Lay your head on my shoulder  
Then when the song ends  
We can pretend it's not over  
As our bodies oh they come together and we sway  
Let's hold on to the night 'cause the rest of our life  
Is only a rumba away

Let's hold on to the night 'cause the rest of our life  
Is only a rumba away
