Big & Rich, Never Been Down

I'm a little bit crazy I'm a little bit reckless with this life Well, I don't worry 'cuz Heaven's on my side

When you're walking on water The waves, they try to knock you down You'll beg and borrow to go another round

Throw the cards on the table Hit me once, then hit me again I'm not afraid 'cuz I'm able, to win It's like I've never been down before like I've never been down it's like I've never been down before like I've never been'

Too afraid to risk it Double down and bet it all 'Cuz if you're ever gonna win it, you got to make the call

Throw the cards on the table Hit me once, then hit me again I'm not afraid 'cuz I'm able, to win It's like I've never been down before like I've never been down it's like I've never been down before like I've never been'

Inside the black or red I never lose my head As long as I get to play You'll never see me frown No matter up or down I'm still in the game

Throw the cards on the table Hit me once, then hit me again I'm not afraid 'cuz I'm able, to win It's like I've never been down before like I've never been down it's like I've never been down before like I've never been down
