

Big Soul, Julene

As I was walking down the hill
Saw a Cadillac just standing still
It had been fins an ocean wide
The driver said, need a ride?
She didn't live in my neighborhood
Her hair was too short but she looked so good
She sunk the clutch, turned the key
Introduced herself... Julene
Do what you wanna do Julene,
I wanna ride with you
She got in gear stepped on the gas
Other people saw us flying past
she flipped the switch, put down the top
When the light turn red, we didn't stop
I said, Julene, are we headed somewhere ?
She said no, but i didn't care
She pushed ahead, drove the engine clean
me in the front seat with...
Julene, Do what you wanna do Julene,
I wanna ride with you
The air turned cool, the sun went down
The lights came up on tinseltown
Julene drove slow into the dark
As we wound our way through griffith park
looking over at the hollywood sign
Me and julene feeling fine
See i don't no Jimmy Dean
I've got my hero... Julene

Do what you wanna do Julene,
I wanna ride with you
