

# Big Star, For You

Sometimes i can't help but worship you  
I love you and all the things that you do  
I thought i'd sit and write this song just for you  
To let you know that i am thinking of you

When i come home so cold at night  
You'll have the fireplace burning bright  
Thoughts of how it's going to be  
And how i'll spend those cold, cold nights warm by you

And in these autumn days i wander through the leaves  
Thinking of those winter nights i'll spend with you

And when i come home so cold at night  
You'll have the fireplace burning bright  
Thoughts of how it's going to be  
And how i'll spend those cold, cold nights warm by you
