

Big Sugar, So Not Over

Right about now...

I'm gonna tell ya a little story...

I'm gonna make up a story for you,
Cause I can't think of one that's true,
And I'm not sure what you'd do, baby.

(Now wait a minute)

I heard that you mentioned my name,
When you were lookin' round' for someone to blame,
Well your gone and ain't it shame,
You said... It's overrr..

Don't say it.

[Chorus]

Don't say it's over...It's so not over.

It's all overrr...

Well don't say that...

Don't say it's over... It's so not over.

Don't say it's over... It's so not over.

(baby, gotta let'chu. Don't you lie to your woman, although it's hard)

She was wild as a bug about me,
At least about the half she could see,
And now its a quarter to three,
She's thinkin' bout'... It's overrr...

(It's all over)

[Chorus]

She said... uh uh... uh uh...

She said... uh uh... uh uh...

(Watch out... Watch out)

Instrumental Solo

Fell in love with a woman who knows,
That you can't judge a man by his clothes,
She's talkin' bout'... It's overrr....

[Chorus X3]

fa fa fa fa far from over

fa fa fa fa far from over

Chang chang chang chang changalang...

Chang chang chang chang changalang...

Chang chang chang chang changalang...

Chang chang chang chang changalang...

Chang chang chang chang changalang...

Chang chang chang chang changalang...

Chang chang chang chang changalang...

Chang chang chang chang changalang...
