

Big Sugar, Tommy Johnson

(G. Johnson/D. Wall)

Well, it's cold outside
Feel the winds start to blow
Well, it's cold outside
Feel the winds start to blow
Well, it's cold inside
When your baby don't want you no mo'

You know, I can close my windows
And I can draw my blinds
I can close my windows
And I can draw my blinds
Well, I can't close my eyes
For the way you left my mind

I asked her for water
And she gave me gasoline
I asked her for water
And she gave me gasoline
I asked her for water
She gave me gasoline

The one that I love
Lord, she treats me so unkind
The one that I'm loving
Lord, she treats me so unkind
You won't hurt me no more
When I leave-
I leave this old world behind
