

Big Tent Revival, Wouldn't It Be Cool

Wouldn't it be cool, if there was no doubt
Wouldn't it be cool, to find a way out
Tear down the walls that hold you in
Between God and sin
Wouldn't it be cool
The sun goes down on Babylon
Those city lights could never last
Nowhere to go, you travel on
Running from a nature that's running twice as fast
Your information - investigation
Brings you to your praying knees
The god you made, where is he now
The Lord Jehovah stands alone
Tonight the prayer you prayed aloud
The Holy Spirit took directly to the throne
Now isn't that cool, there is no doubt
Now isn't that cool, you found a way out
You tore down the walls that held you in
Between God and sin
Now isn't that cool, isn't that cool
