Big Tent Revival, Wouldn't It Be Cool

Wouldn't it be cool, if there was no doubt Wouldn't it be cool, to find a way out Tear down the walls that hold you in Between God and sin Wouldn't it be cool The sun goes down on Babylon Those city lights could never last Nowhere to go, you travel on Running from a nature that's running twice as fast Your information - investigation Brings you to your praying knees The god you made, where is he now The Lord Jehovah stands alone Tonight the prayer you prayed aloud The Holy Spirit took directly to the throne Now isn't that cool, there is no doubt Now isn't that cool, you found a way out You tore down the walls that held you in Between God and sin Now isn't that cool, isn't that cool
