

# Big Time Rush, Like Nobody's Around

Want you to cry  
Cause you're laughing so hard tonight  
Playing air guitar alright  
We're being who we are even if they hate that

Want you to shout  
At the top of your lungs about  
All our favorite songs so loud  
We'll be singing along even if they hate that

Turn up the radio  
So what if we lose control  
Get a little bit rock and roll oh whoa oh

So throw your hands in the air  
Come on and make this count  
It's only you and me, nevermind this crowd  
Do the way you do it  
Do it like nobody's around, whoa  
So put your hands in the air  
Come on and waste no time  
It doesn't really matter if it's wrong or right  
Do the way you do it  
Do it like nobody's around  
We can do it like nobody's around

Turn up the radio  
So what if we lose control  
Get a little bit rock and roll oh oh oh

So throw your hands in the air  
Come on and make this count  
It's only you and me, nevermind this crowd  
Do the way you do it  
Do it like nobody's around, whoa  
So put your hands in the air  
Come on and waste no time  
It doesn't really matter if it's wrong or right  
Do the way you do it  
Do it like nobody's around  
We can do it like nobody's around

Whoa oh oh oh  
We can do it like nobody's around  
Whoa oh oh oh  
We can do it like nobody's around  
Yeah yeah yeah  
Whoa oh oh oh  
Yeah yeah yeah  
We can do it like nobody's around  
Whoa oh oh oh  
We can do it like nobody's around
