

Bigwig, Falling Down

They teach us
to be "ourselves"
in a structured society
Facists, racists police states
sometimes I don't feel very free

And I am falling down(down! down! down!)
And the system is falling down(down! down! down!)
I am falling down!

I am falling down!

YEAH!They exploit your freedom
and they take away your rights(RIGHTS!)
The one they use, they try to abuse
No matter how hard we fight(WE FIGHT!)

And I am falling down(down! down! down!)
And the system is falling down(down! down! down!)
I am falling down!

So stop the hate
don't segregate
Stop the fighting we're all dying
Stop the preaching, start the teaching
Pull together, make the system better!

And I am falling down
I am falling down
I am falling down
down! down! down! down!
I am falling down
