

Bill Anderson, Children

Children we're acting like children instead of like a man and a fullgrown woman
We're acting like babies little bitty babies
And we're about to throw away a lifetime of good good loving

Love is not a game love is not a toy I'm not a little girl and you're not a little boy

But if we're not careful we're gonna destroy
A fairy tale that might have come true

By acting like children little bitty children
And we're about to throw away a lifetime of good good loving

Once upon a time we didn't fight everything was beautiful everything was right

And we make love instead of war every night
And I wanna go back to the good times

Stop acting like children little bitty children
Start acting like a man and a fullgrown woman
We're acting like babies little bitty babies
Cause we're about to throw away a lifetime of good good loving
