

# Bill Anderson, Feel Free to Go

FEEL FREE TO GO

(Bill Anderson)

'71 Stallion Music

Day after day and for hour upon precious hour  
I've held you and marveled at love that stayed fresh as a flower  
From daylights to nightfall through sunlight and rainfall  
Our spark hasn't once lost its glow  
My arms have entwined you but never confined you  
I'd die if you left but I want you to feel free to go  
Feel free to go if my love ever feels like a chain around your heart  
Stay cause you want me not cause you feel like you're tied  
I love you I need you a love that so few people know  
I want you to stay but I want you to feel free to go  
If we should ever come to the forks in the road you go your way  
And never look back in regret that you hurt me in some way  
For right now if the sun stopped and all of the fond stop  
My cup would still overflow  
For you've been a treasure beyond any measure  
I'd die if you left but I want you to feel free to go  
Feel free to go...
