

Bill Anderson, I Still Believe in Love

I've been walked on looked through laughed at lied to
I've been stripped of all my feelin's and what little pride I've got
But I still believe in love believe it or not
I've been pushed aside unsatisfied I've tried and I've cried
I've given and I've taken and I've hurt an awful lot
But I still believe in love believe it or not
I still believe that somewhere there's a woman I can gently put my arms around
And kiss her lips and thrill her
When I tell her she's the greatest thing I've ever found
I still believe that I can offer some girl something she has never known before
But she's been searching for
I've been walked on looked through laughed at lied to
I've given and I've taken and I've hurt an awful lot
But I still believe in love believe it or not
[steel]
I've been walked on...
I still believe in love believe it or not I still believe in love believe it or not
