

Bill Monroe & His Bluegrass Boys, Please Be My

I wanna be with you I can give you love that's true
Just believe the way I feel I love you and I always will
No one could take your place with me
Don't ever think of setting me free
Just believe the way I feel I love you and I always will
Please be my love, please be my love
Just believe the way I feel I love you and I always will

No one can thrill me like you do
I'll spend a lifetime loving you
Just believe the way I feel I love you and I always will
I think of you each day and night
I just want to hold you tight
Just believe the way I feel I love you and I always will
Please be my love, please be my love
