

Bill Nye, Bones In My Body

Got bones in my body
Or else I'd be like jelly
They help me stand up straight
So I can perform ballet

Yeah, I got bones in my body
Working with my muscles too
They let me do my ballet
And how 'bout you?

Like a true vertebrate
I think bones, bones are great
They work with muscles too
They're in me and in you

Bones in my body
Bones in my body
