

Bill Nye, Got Me Looking

There are so many comets and meteors
In the sky
But we only see a few
Fly close by
When they're on a course that brings them too near
They start to burn if they hit the Earth's
Atmosphere

Might make it all the way
All the way to the ground
Might make the crater
Big and round

Comets and meteors got me lookin'
Got me lookin' up into the sky now
Ooooh
They're made of dirt and ice
You know they're in orbit
They're in orbit around the sun now

Oooh, yeah
